

Warsaw, 9 January 2013

LETTER OF REFERENCE

Jana Kepska has been teaching on 3 German courses on our school from 1st December 2011 to 11th November 2012. We teach doctors medical and general German to B2 level. Jana has been teaching both medical and general German. She has taught in our classrooms daily on the 3 courses and in between she has taught on Skype.

I am very happy with having Jana as a teacher. She does an excellent job teaching both medical and general German, and she is popular among the doctors. She has prepared some of them for the local medical language test in Germany (obligatory in some areas in Germany), and they have passed the test without problems.
